DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on June 10, 2004, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 8, 15-22, and 25.

Response to Arguments

2. Applicant's arguments, see Amendment, filed June 10, 2004, with respect to claims 1-33 have been fully considered and are persuasive. The rejection of claims 1-7, 11-19, 21, 23-24 and 29-33 under 35 USC 102(b) as being anticipated by Brandon et al (5,916,203) has been withdrawn. The rejection of claim 28 under 35 USC 102(b) as being anticipated by or, in the alternative, under 35 USC 103(a) as being obvious over Brandon et al (5,916,203) has been withdrawn. The rejection of claims 1-23 under the judicially created doctrine of obviousness-type double patenting has been rendered moot with the abandoning of application serial number 10/227,688 and therefore withdrawn.

Allowable Subject Matter

3. Claims 1-7, 9-14, 23-24, and 26-33 are allowed.

4. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the inclusion of the microwave power being greater than about 1.0 kW in the claims. . The prior art made of record teaches using microwave energy with a power of about at least 300 to about 500 watt, therefore it is the examiner opinion that it would have not been obvious for a artisan of ordinary skill in the art to use microwave energy in a method on making a materials with controlled

shrinkage having a power greater than 1.0 kW. The prior art fails to teach using microwave radiation having a power as specified in applicant's instantly claimed invention and is therefore distinguished over the prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
